

## Instructions For Template Set Up:

1. Art MUST fit within the margin and bleed parameters shown on template. See example below.
  - **Green line\*** is inside margin. Leave 1/8 inch inside margin from the edges of the magnet on all sides for live art (all pertinent information must fit within the 1/8" inside margin).
  - **Pink line\*** is bleed requirement. If you want the art to bleed (have imprint run off the edges of the magnet), give art an 1/8 inch outside margin on all sides.
  - **Gray line\*** is where the magnet will be die cut for final production.

Note: Required margins/bleeds are 1/8" each. Art received without the 1/8" margin/bleed space will be adjusted for die cutting production.

The diagram shows a rectangular template for a magnet. It consists of three nested rectangles. The outermost rectangle is green and represents the full size of the magnet. The middle rectangle is gray and represents the die-cut line. The innermost rectangle is pink and represents the inside margin. The text "7 x 1.5" ROUND CORNER MAGNET" is centered within the pink margin area.

**7 x 1.5" ROUND CORNER MAGNET**
