

Instructions For Template Set Up:

1. Art MUST fit within the margin and bleed parameters shown on template. See example below.
 - **Green line*** is inside margin. Leave 1/8 inch inside margin from the edges of the magnet on all sides for live art (all pertinent information must fit within the 1/8" inside margin).
 - **Pink line*** is bleed requirement. If you want the art to bleed (have imprint run off the edges of the magnet), give art an 1/8 inch outside margin on all sides.
 - **Gray line*** is where the magnet will be die cut for final production.

Note: Required margins/bleeds are 1/8" each. Art received without the 1/8" margin/bleed space will be adjusted for die cutting production.

A diagram showing the template for a 6" x 1.5" square corner magnet. It consists of three nested rectangles. The outermost rectangle is green, representing the 1/8" inside margin. The middle rectangle is black, representing the 1/8" bleed requirement. The innermost rectangle is pink, representing the final die-cut area. The text "6" x 1.5" SQUARE CORNER MAGNET" is centered within the pink area.
